

The First International Workshop on Mobile Internet (MoI 2014)

Co-located with IEEE MSN2014

<http://theory.utdallas.edu/MSN2014/index.html>

Call for Papers

With the development of technology, more and more mobile equipments are widely used and many novel applications appear. It becomes hot topic to uncover inherent principles of mobile Internet, such as its topology characteristic, its evolution rules, the relationship between mobility and online social networks, its novel applications and infrastructures.

MoI'14 workshop welcomes submissions of original papers concerning all aspects of mobile Internet ranging from concepts and theoretical developments to advanced technologies and innovative applications.

Topics of interest include, but are not limited to:

- Mobile Internet topology analysis
- dynamic network analysis
- dynamic graph method
- Mobile recommendation
- Network evolution and prediction
- Data Transport and Management in Mobile Internet
- Mobile Social Networking
- Security and Privacy in mobile Internet
- technologies and infrastructure for mobile Internet applications
- Vehicular networks
- Mobile e-health networks

Important Dates

Paper submission : **September 30, 2014**

Notification of Paper Acceptance: **October 13, 2014**

Camera ready due: **October 27, 2014**

Conference Registration: **October 27, 2014**

Conference: **December 19-21, 2014**

PC Co-Chairs

Li Wang, TaiYuan University of Technolog, China

Bruno Gonçalves, Aix-Marseille Université, France

Jiaofei Zhong, University of Central Missouri, USA
